RE: Forest Park Parkway (St. Louis County Project CR-1526)

Dear University City, Clayton, and Ladue:

We anticipate on starting work on Forest Park Parkway for St. Louis County Friday, June 3. We are repairing and placing an Ultrathin Bonded Asphalt Surface on the asphalt sections of Forest Park Parkway from I-170 to just West of Skinker Blvd (change in pavement in front of Wash U). We will also be paving the connecting lanes of Pershing (in U City) and the Forsyth exit ramp (in Clayton).

We begin working DAYS (8:00am – 4:00pm). Since there are four (4) lanes throughout the project, we will have 1 lane shut down in each direction at a time delineating traffic to one open lane. We anticipate 3-4 days of repairs, and 4-5 days of paving.

We will have one to two nights of work at the ramps on/off I-170 (Clayton/Ladue). Since we will be shutting them down, MoDOT requires this to be completed between 10:00 pm and 5:00 am. We are anticipating completing this the last week in June.

Please be patient with this construction. We will do our best to maintain a safe and steady traffic flow throughout the Parkway, but do expect some delays for the duration of the project.

Thank you for your time. We look forward to completing this job for all of you and St. Louis County.

Regards,

N.B. West Contracting
